

Contemporary Designs

Clean lines and natural wood tones from around the world help to achieve the stream-line look of contemporary high-end European Cabinetry.

Conestoga's International Specie Collection includes nine unique veneers on modern door designs. Choose from domestic woods including plain sliced Cherry and Maple, or Rift Cut White Oak and Birdseye Maple. For a more dramatic effect, try the unique looks of Figured Anigre, Bamboo, Wenge, Zebrawood and Macassar Ebony.

Each veneer is available in either vertical or horizontal grain directions and can be further enhanced with our sequential grain matching option.

Whatever your preference, Conestoga's International Specie Collection provides the look you'll need for your next contemporary kitchen project.

Cherry

Hard Maple

Wenge

Figured Anigre

Caramelized Bamboo

Birdseye Maple
