

Put a new twist into your kitchen, vanity and furniture designs with this collection of accent panel inserts from Conestoga. Whether it's one of our simplistic wood lattice patterns or a more modern looking wire grille insert, we offer the design accents you need to bring focus to your latest design.

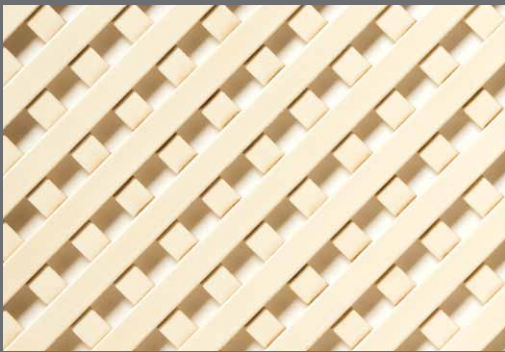

Panel Inserts

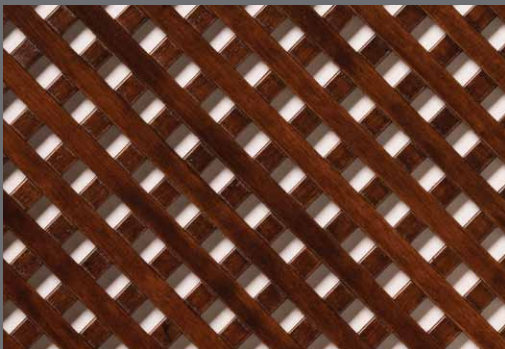

Our new wood lattice insert program allows you to purchase full sheets of both a square lattice pattern and two diagonal patterns. Each sheet can be purchased in Hard Maple, Cherry, Red Oak and Pine, and finished with your favorite stains, glazes, paints and Colourtones to match the rest of your component order.

9/16" Square Lattice

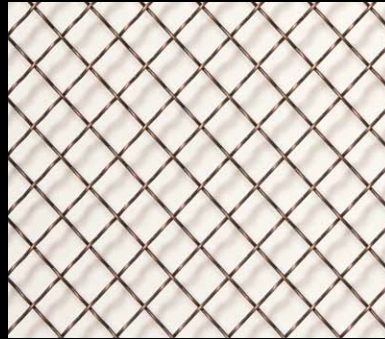

9/16" Diagonal Lattice

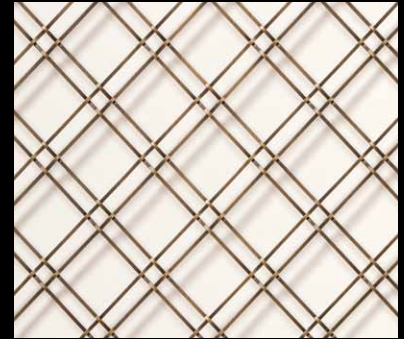

7/16" Diagonal Lattice

Conestoga's wire grille program consists of eight individual patterns and multiple wire textures. Available in antique brass, oil rubbed bronze and satin steel finishes, our wire grilles can be ordered in full sheets or cut to size, ready to insert into your mullion or frame only accent doors. A standard rubber retainer moulding snugly secures the wire grille in place. Oversize sheets and alternative finishes are also available by special request.
