This set of plans is the result of design discussions/decisions between Annie Newell and the customer/contractor noted below. All appliance model numbers and installation options have been provided and reviewed by the customer/contractor. It is the customer/contractor's responsibility to clearly understand and approve every aspect of this set of plans. This includes, but is not limited to, dimensions, cabinet codes/sizes, appliance panels, and appliance openings. These drawings assume that level surfaces for the cabinets have been verified by the customer/contractor. Out of level floors or ceilings will affect the installation of trim/crown.

Cabinet Joint will not release an order until this set of plans has been approved by the customer/contractor with a signature below.
